Sumaryczna moc osiągalna netto jednostki fizycznej [MW]	3

Z komentarzem [A1]: The table shall be completed with data in accordance with the business register of the country.

Z komentarzem [A2]: Indicate the EIC or individual code of the physical unit which the application is submitted for.

Z komentarzem [A3]: If a physical cross-border unit has been already registered in the Polish capacity market from participation in certification in previous years, it is necessary to provide the physical unit code in accordance with the capacity market register. In case of certification of a physical unit for the first time, the code is not known. The field shall be left blank.

Z komentarzem [A4]: The total net maximum capacity of a physical unit shall not exceed the value of its connected load and shall be consistent with the net maximum capacity of the physical unit included in the application for certification.

¹ The passport number to be stated for a natural person who has no PESEL number.

² Applies to entities with a registered office outside the territory of the Republic of Poland..

³ The year which the individual de-rating factor is to be determined for.

⁴ If EIC codes shall not been used in a given country, another unique code, which is known to the transmission system operator, shall be entered.

⁵ Adress shall contain country, post code, place, street and house number.
