

**Template confirmation of the ability to deliver net maximum capacity**

**Confirmation of the ability of individual physical units<sup>1</sup> forming part of a capacity market unit to deliver net maximum capacity**

<b>Code of physical unit</b>	JF/B7CFCD1225/1234		
<b>Function in the system</b>	<input type="checkbox"/> electricity generator <input checked="" type="checkbox"/> electricity and heat generator (cogeneration) <input type="checkbox"/> energy storage		
<b>Energy production technology</b>	simple cycle gas turbine		
<b>Gross maximum capacity</b>	30	<b>Net maximum capacity</b>	27
<b>Basic energy source</b>	high-methane natural gas in liquid or gaseous state		
<b>Additional energy source</b>			

**Z komentarzem [A1]:** In case of certification of a physical unit for the first time, the code is not known. The field should be left blank.

**Z komentarzem [A2]:** Classification in accordance with Section 6.2.2.3 of the Capacity Market Rules.

**Z komentarzem [A3]:** Classification in accordance with Section 6.2.2.4 of the Capacity Market Rules.

<p><b>Confirmation of the ability of individual physical units forming part of the capacity market unit to deliver net maximum capacity during the delivery period for a continuous period not shorter than 4 hours, including information about the technology used and the method of ensuring the availability of fuel in quantities sufficient for the performance of the capacity obligation<sup>2</sup></b></p>	
<input type="checkbox"/> the physical unit has or will have, during the delivery period, an energy or fuel storage/reservoir with a capacity sufficient to ensure operation at net maximum capacity for a continuous period of at least:	..... h
<input type="checkbox"/> the physical unit has a contract in force that ensures unconditional and continuous supply of fuel in quantities sufficient to ensure operation at net maximum capacity for at least 4 hours – quote the relevant provisions of the contract: ..... .....	
<input type="checkbox"/> the physical unit has a contract in force that ensures continuous supply of fuel in quantities sufficient to ensure operation at net maximum capacity for at least 4 hours, subject to reservations or restrictions – quote the relevant provisions of the contract: ..... .....	
<input checked="" type="checkbox"/> the physical unit will have a contract in force during the delivery period that will ensure continuous supply of fuel in quantities sufficient to ensure operation at net maximum capacity for at least 4 hours, subject to reservations or restrictions	

<sup>1</sup> Appendix to be completed in as many copies as there are physical units forming part of the capacity market unit  
<sup>2</sup> Select at least one method of confirming the ability to deliver net maximum capacity

**Template confirmation of the ability to deliver net maximum capacity**

<input type="checkbox"/>	the physical unit is supplied from its own source of primary energy that guarantees continuous fuel supply in quantities required for operation at net maximum capacity for a period of at least 4 hours <sup>3</sup>
<input type="checkbox"/>	in the last calendar year, the physical unit has generated electricity for 4 consecutive hours between 7:00 a.m. and 10:00 p.m. on working days, and delivered it to the grid with a capacity equal to or greater than 95% of the net maximum capacity <sup>4</sup>
<input type="checkbox"/>	based on the measurements of primary energy sources and simulation results, the physical unit would generate electricity for 4 consecutive hours between 7:00 a.m. and 10:00 p.m., and deliver it to the grid with a capacity equal to or greater than 95% of the net maximum capacity <sup>5</sup>

<input checked="" type="checkbox"/> I represent that the information given above is accurate and complete	
<b>Date</b>	dd.mm.yyyy
<b>Signature</b>	Anna Nowak

**Z komentarzem [A4]:** The box must be checked.

**Z komentarzem [A5]:** The date indicated must not be later than the date of the submission of the application for certification.

**Z komentarzem [A6]:** The electronic version of the document shall be signed with a qualified electronic signature by the person in authority (appendix 4.3.).

EXECUTED IN POLISH ONLY

<sup>3</sup> Does not apply to the following types of basic energy sources: solar radiation energy, wind energy, hydro – run-of-river  
<sup>4</sup> Applies to existing units and the following types of basic energy sources: solar radiation energy, wind energy, hydro – run-of-river  
<sup>5</sup> Applies to planned units or units commissioned in the calendar year preceding main certification, and the following types of basic energy source: solar radiation energy, wind energy, hydro – run-of-river
